Professional Summary

I am a freelance Filmmaker / Cinematographer working predominantly on Independent features, Shorts and Music videos. I am passionate with a strong work ethic and I revel in the collaborative filmmaking process.

I am completely open to creative choices and challenges whilst still having my own strong vision.

In 2016 my first feature film Viking Legacy attained a worldwide distribution deal. It reached #7 in the UK DVD sales chart.

Key Expertise

I have shot a number of low budget feature films, having the bare minimum of crew, equipment and resources.

I worked to raise the production values using frugal methods and cheap cinematic tricks to get a great image that serves the story.

My mantra is to build on the foundations of effective storytelling to create a product that is greater than the sum of it's parts.

Skills

I have experience using a number of cameras including RED cameras, Sony FS7 and A7s, XF305, C300 as well as motion control timelapse.
